DOCUMENTATION

Need help with the Order Delivery Plugin?

This plugin is supplemental to WooCommerce. It connects with the information about orders and helps with organizing the daily schedule. The thing to remember is anything about the actual order needs to be edited in WooCommerce. Anything about the schedule can be added here in the plugin. Links have been setup to help navigating a little easier through both plugins.

Locations | Orders | Schedule

Locations

Locations are pulled into a view for each location: Northside, Southside and Middleville. In order to add a new location, use the Add New Location link to open the dialog.
